GURWINDER PARHAR

Full Stack Developer

Punjab, India | gurwinderanusurja@gmail.com | +91-7710590719 | LinkedIn | GitHub | Portfolio

Professional Summary

Full Stack Developer with 3+ years of experience building responsive React front ends, Node.js and Express REST APIs, and PostgreSQL-backed dashboards. Skilled in reusable component design, role-based login, data visualization and hand-built SVG charting.

Professional Experience

Full Stack Developer & MIS Executive — Sep 2026 – Present

Dinero FoodWorks — *Nawanshahr, Punjab, IN*

- Build and maintain the Financial Management System (FMS), Inventory Management System (IMS) and Purchase Management System (PMS) that run daily plant and purchasing workflows.
- Develop backend services and REST APIs with Node.js and Express, backed by PostgreSQL schemas for transactions, stock movements and purchase records.
- Build responsive React and TypeScript interfaces, forms and dashboards that let management track approvals, stock levels and purchase status.
- Design, develop and manage two company websites, covering layout, content, page structure and ongoing updates.
- Manage traffic for dinerofoodworks.com, which recorded [X] site visitors over the last [N] days.
- Automate operational reports with Google Sheets, Google Apps Script and triggers, replacing manual data consolidation.

Front-End Developer — Aug 2023 – July 2026

The Knowledge Academy (TKA) — *Jalandhar, Punjab, IN*

- Built reusable React components and Bootstrap 5 layouts for client pages, reducing duplicate UI code and making new pages faster to build and easier to maintain.
- Delivered responsive, mobile-first interfaces with HTML5, CSS3, JavaScript, React.js and Bootstrap 5 across desktop, tablet and mobile.
- Implemented interactive UI features, dynamic forms, navigation systems and client-side validation for smoother user flows.
- Built interactive dashboards with sortable data tables and charts to support data-driven decisions.
- Optimised front-end assets and code to improve page load performance.
- Customised WordPress themes and page layouts while preserving site functionality and visual consistency.
- Ran cross-browser and device testing across mobile, tablet and desktop, fixing usability issues before release.
- Managed source code with Git and GitHub for version control and team collaboration.

Technical Skills

Front-End	JavaScript, React.js, TypeScript, Bootstrap 5, WordPress
Back-End & Databases	Node.js, Express, REST API Design, PostgreSQL, SQL, JWT Authentication
Data & Visualization	SVG Charting, Recharts, Data Tables, Dashboard Design, Data Visualization
Tools & QA	Git, GitHub, Visual Studio Code, Figma, Cross-Browser Testing
Reporting & Automation	Google Sheets, Google Apps Script, Report Building, Process Automation
SEO & Analytics	Google Analytics, Google Search Console

Projects

FMS Engine Operations Workflow System — ***React, TypeScript, Node.js, Express, PostgreSQL*** Live Demo

- Built a multi-stage workflow engine where each stage unlocks only after reviewer sign-off, with workflows created from PDF, ZIP or manual stage entry.
- Emailed each stage's Google Form link through SMTP, and tracked planned due times, actual completion and delay for every stage.

- Built a live dashboard with on-time rate, average delay, overdue counts and workflow diagrams, with Google Workspace sign-in, role-based access and an audit trail.

StockPulse Inventory & Reorder Dashboard — ***React, Node.js, Express, PostgreSQL, JWT*** **Live Demo**

- Built a full stack inventory dashboard with stock health KPIs, daily stock in vs out charts, and stock value by warehouse and category.
- Tracked IN, OUT and ADJUSTMENT movements across three warehouses, with product SKUs, reorder levels, date filters and CSV export.
- Added low-stock and reorder alerts, purchase suggestions, and login with admin and staff roles, backed by a PostgreSQL database.

ERP Business Management System — ***HTML5, CSS3, JavaScript, Bootstrap 5*** **Live Demo**

- Built a browser-based ERP with eleven modules, including sales, purchasing, inventory, accounting, manufacturing and reports.
- Tracked stock across warehouses with low-stock alerts; managed sales orders, invoices and supplier records.
- Built employee directory, attendance and leave approval workflows, with CSV export on every table.
- Added sign-up with a password strength meter, a one-click demo account, notifications and dark mode.

Project Management Application — ***HTML5, CSS3, JavaScript, Canvas*** **Live Demo**

- Built a framework-free Kanban app with a heat engine that scores each task from 0 to 100 by priority, due date and idle time.
- Added drag and drop with WIP limits, subtasks, undo, calendar and timeline views, and a Ctrl+K command palette.
- Built a Time Machine slider that rewinds the board, plus a standup writer and a report of where work waits.
- Added team and reports pages, light and dark themes, and JSON backup and restore.

ParScore — ***React, TypeScript, Tailwind, Express, PostgreSQL*** **Live Demo**

- Built a cross-platform content analytics app that pulls data from YouTube, GitHub, Bluesky, Hacker News and Dev.to APIs.
- Scored each video by views and engagement relative to its channel average, rating results as strong, average or underperforming.
- Added an AI report with a rule-based fallback and a chat agent that answers questions about the analysis.
- Built a TypeScript Express API with zod validation, optional PostgreSQL snapshots and Vitest tests, deployed on Render.

Education

Bachelor of Computer Applications (BCA) — August 2020 – May 2023
Lyallpur Khalsa College — Guru Nanak Dev University (GNDU) — *Jalandhar, Punjab, India*

- Modules: Networking, Operating Systems, DBMS, Software Engineering, Web Technologies

Higher Secondary — Commerce Stream — 2018 – 2020
Sutlej Public Senior Secondary School — *Banga, Punjab, India*

Certifications

Samsung Innovation Campus — Solve for Tomorrow — SEO for Beginners — HTML Programming — CSS Programming — JavaScript Programming — C++ Programming

Awards & Recognition

- **Best HTML & CSS Framework Developer** — Tech Fest 2022, Lyallpur Khalsa College, GNDU

Languages

English — Proficient — **Punjabi** — Native — **Hindi** — Conversational
